English (B1)

Experience

Erateq | UI/UX Intern

Mar 2025 - May 2025

- Designed UI screens for task management and system interfaces.
- Improved interface clarity, usability, and consistency.
- Gained hands-on experience in product workflow and UI/UX process.

FPT IS | UI/UX Intern

May 2026 - Jul 2026

- Participated in designing Internet Banking and Mobile Banking interfaces.
- Created user flows, wireframes, UI screens, and prototypes using Figma.
- Collaborated with BAs and developers to align requirements with design implementation.

Projects

Task Management System | Web Design

- Designed a task management system to help users organize, manage, and track daily work efficiently.
- Focused on task visibility, clear information structure, and simple workflow navigation.

EduplanZ | Smart study planning solution

- Designed a student-focused web app to help users plan study tasks, manage deadlines, and organize schedules.
- Created UX structure, user flows, wireframes, and final UI screens using Figma.

FBank | Internet Banking & Mobile Banking

- Designed banking feature modules for Internet Banking and Mobile Banking, including transactions, transfer flows, multi-user management, chatbot, and payroll payment.
- Created user flows, wireframes, UI screens, and prototypes using Figma.
- Applied reusable components across screens to maintain consistency and improve design efficiency.

Nep Nha | Family Connection App (IKI Living OS)

- Designed a family connection app for coordinating tasks, reminders, shared expenses, and activities, with a warm, accessible UI for multi-generation users.
- Created user flows for task assignment, a shared calendar, and family check-ins to improve communication between members.
